

CEREDIGION COUNTY COUNCIL

Report to:	Cabinet
Date of meeting:	05.07.22
Title:	Ceredigion Play Sufficiency Assessment 2022
Purpose of the report:	To consider and endorse the Ceredigion Play Sufficiency Assessment 2022 including the proposed priorities for the Play Action Plan 2022-2025
For:	Decision
Cabinet Portfolio and Cabinet Member:	Cllr Catrin M.S. Davies, Cabinet Member for Culture Leisure and Customer Services

BACKGROUND:

The Welsh Government recognises its aim of creating a play friendly Wales and to provide excellent opportunities for our children to play. Under section 11(1) of the Children's and Families Wales Measure 2010 there is an obligation on each County Council regarding play opportunities.

Since 2013 and every 3 years since, each local authority has to complete a Play Sufficiency Assessment (PSA). Each PSA should be published on the LA website. The duty consists of two elements; firstly, an assessment of local play sufficiency; and secondly, an action plan to secure sufficient play opportunities so far as reasonably practicable.

The Welsh Government defines Play as "*any recreational activity*" and sufficiency, in relation to play opportunities, is about the "*quantity and quality of opportunities for children to play*".

The PSA includes:

- Demographic profiles of the area.
- An assessment of:
 - Open space and potential play area.
 - Dedicated play provision.
 - Recreational provision.
 - Other factors that promote play opportunities including planning, traffic, transport, information, publicity and workforce development.

CURRENT SITUATION:

This is the 4th Play Sufficiency Assessment carried out by Ceredigion County Council. An assessment toolkit is provided by Welsh Government to support the process which is split into 9 sections (matters). There is a requirement to consult widely with partners, the community, children & young people and parents.

The 9 matters are:

- A. Population
- B. Diverse needs
- C. Space available to play
- D. Supervised provision
- E. Charges for play provision
- F. Access to space/provision

- G. Workforce
- H. Community Engagement & Participation
- I. Policies & Implementation

In order to meet the timescales, set by Welsh Government a draft PSA report was presented and considered by the Learning Communities Overview and Scrutiny Committee at their meeting held on the 2nd March 2022.

A copy of the full Ceredigion PSA 2022 report is provided as **Appendix A** and members will note the progress that has been made since the last PSA. A significant development is the responsibility for Play moving to the Wellbeing Centre Service within Porth Cymorth Cynnar. This was in recognition of the role that Play can make in encouraging our young people in particular to be physically active.

At the end of the Ceredigion PSA 2022 is the proposed Action Plan for the next 3 years (2022-2025) for ease of reference, the priorities within the Action Plan are provided directly below:

ACTION PLAN PRIORITIES:

- Improve Play provision in rural areas
- Improve Welsh Language play provision
- Ensure there are single gender play opportunities available
- Ensure that there are accessible play opportunities for Young Carers
- Carry out Play Value Assessments and Access Audits
- Ensure that there is an appropriate way for young people to give their views on planning policy / applications
- Investigate the possibility of registering Wellbeing Centres with Care Inspectorate Wales (CIW)
- Help Play Providers provide a rich play environment
- Improve accessible play information on DEWIS
- Work with Sustrans to promote safe active travel to play areas
- Provide important continued professional development for paid and unpaid play workers
- Employ a new officer with responsibilities for developing play in Ceredigion
- Continue to build strong working relationships with key partners
- Ensure Play is recognised and understood at a strategic level within organisations
- Work with Schools Services to ensure there are rich play environments in our schools.

The Action Plan priorities will seek to maximise the contribution that Play can make to improving the Health & Wellbeing of the citizens of Ceredigion and that opportunities for collaborative working are pursued.

Members are asked to accept and endorse the Ceredigion Play Sufficiency Assessment 2022 including the proposed priorities for the Play Action Plan 2022-2025 to enable it to be presented to Welsh Government and meet our required duty.

Wellbeing of Future Generations: Has an Integrated Impact Assessment been completed? YES

Summary:

Long term: Positive: Play can make an important contribution to the health and wellbeing of citizens

Collaboration: Positive - Play Development in the county involves 3rd Sector and Community/Town Council involvement

Involvement: Positive – The PSA process has involved public and partner consultation / engagement

Prevention: Positive – Play can contribute to combating social, mental and physical ill health

Integration: Positive – Play can contribute to a number of cross cutting agendas

Recommendation(s): **To consider and endorse the Ceredigion Play Sufficiency Assessment 2022 including the proposed priorities for the Play Action Plan 2022-2025**

Reasons for decision: To enable the local authority to meet its obligations Under section 11(1) of the Children’s and Families Wales Measure 2010 in relation to Play Opportunities

Overview and Scrutiny:

Policy Framework: Draft report considered by the Learning Communities Overview and Scrutiny Committee on 02.03.2022

Corporate Priorities: Corporate Priority 2 – Investing in People’s Future
Corporate Priority 3 – Enabling Individual and Family Resilience

Finance and Procurement implications:

Legal Implications: N/A

Staffing implications: N/A

Property / asset implications: N/A

Risk(s): Detailed in the Ceredigion PSA Report 2022

Statutory Powers:

Background Papers:

Appendices: Appendix A - Ceredigion Play Sufficiency Assessment Report and Action Plan 2022

Corporate Lead Officer: Elen James

Reporting Officer: Alwyn Davies

Date: 05.07.22

Play Sufficiency Assessment Form

Llywodraeth Cymru
Welsh Government

Name of Local Authority: Ceredigion County Council

Name of responsible officer: Alwyn Davies

Job title: Team Manager: Through Age Physical Activity & Play

Date of completion: 01.06.2022

Please note that the Play Sufficiency Assessment must be received by the Welsh Government by 30 June 2022

Conducting the Assessment – Play Sufficiency Assessment

As well as establishing a baseline of provision, the Play Sufficiency Assessment will enable the following:

- Identification of gaps in information, provision, service delivery and policy implementation
- Support the establishment of evidence to give an indication of distance travelled in relation to play sufficiency
- Highlight potential ways of addressing issues relating to partnership working
- The input and involvement of all partners increasing levels of knowledge and understanding
- A monitoring system which will involve and improve communication between professionals
- The identification of good practice examples
- Increased levels of partnerships in assessing sufficient play opportunities
- The identification of actions for the Securing Play Sufficiency Action Plan which accompanies the Play Sufficiency Assessment

A template has been produced to support a corporate appraisal of the matters that need to be taken into account as set out in the Statutory Guidance. The indicators listed within each matter are provided as sample indicators which should be amended to meet local issues as appropriate.

The Play Sufficiency Assessment must demonstrate that the Local Authority has taken into account and assessed the matters set out in The Play Sufficiency Assessment (Wales) Regulations 2012 and Statutory Guidance.

As well as providing baseline information, the Assessment can include examples of current practice that the Local Authority wishes to highlight.

Local Authorities might consider structuring the Play Sufficiency Assessment in the following way and as a minimum address all the identified sections.

Principle Statement

“Play is one of the ways that children learn about themselves, the people around them their environment and the community in which they live.” Play is essential for:

- Physical, emotional and spiritual growth
- Intellectual and educational development
- Social and behavioural skills

Children will play anywhere at any time given the opportunity. Ceredigion County Council and partners have a responsibility to create the right conditions in which children can access good quality opportunities for playing.

Context

This 2022 Play Sufficiency Assessment was undertaken by the Wellbeing Centres Service (under which Play now sits). It was scrutinised by the Learning Communities Scrutiny Committee on the 2nd March 2022 before being approved by Cabinet.

The assessment process commenced with a self-assessment - relevant sections of the toolkit were sent to the following teams within the Council to enable a broad overview of the current situation relating to each criteria within the toolkit:

- Performance & Research
- Childcare
- Economy & Regeneration
- Safe & Active Travel
- Health & Safety
- Economy & Community Services
- Wellbeing Centres
- Theatr Felinfach
- Youth Service
- Schools Service
- Tim Plant Anabl
- Flying Start
- Cered

Partnership working

Relevant sections of the toolkit were sent to the following 3rd Sector partners and community groups to complete, in the form of a critique of the work of the Council and partners:

- DASH
- Red Cross
- RAY Ceredigion
- CAVO
- Action for Children
- Family Centres
- PSB
- West Wales Care Partnership
- Sustrans
- Homestart
- Mudiad Meithrin

Consultation and participation

Questionnaires were carried out with children at activities around Ceredigion in Wellbeing Centres and Specific Play opportunities run by RAY Ceredigion. These questionnaires were designed in partnership with the Childcare Unit to enable action planning for the PSA and the CSA.

A questionnaire was also sent to the Play Area Network (primarily town and community

councils).

With the understanding that there have been so many questionnaires due to the Covid pandemic, we incorporated feedback and responses from the following:

- The Ceredigion Assessment of Local Wellbeing
- Children's Commissioner's Coronavirus & Me survey
- A feasibility study into Youth Provision
- The Gypsy Travellers Assessment 2020
- The Chilcare Unit's Self Assessment (SASS) to CIW
- Online Family Support Survey
- The 2018 School Sport Survey
- The Wellbeing Centre's Sport & Recreational Activity Strategy consultation
- The Increasing Wellness & Tackling Hardship PSB
- The Children's & Young People's Service Provider Forum PSB Sub Group

The Play Sufficiency Assessment and local Well-being Plans

The Wellbeing Centres Service has developed a close relationship with Performance & Research Service and this has enabled the Local Wellbeing Plan to guide and influence the PSA.

Monitoring Play Sufficiency

Lead Director: James Starbuck

Corporate Lead Officer: Elen James

Corporate Manager: Carwyn Young

Cabinet Member for Culture, Leisure and Customer Services: Cllr. Catrin M.S. Davies

Reporting: The PSA is reported to the Learning Communities Overview and Scrutiny Committee

Play Monitoring: The Children and Young People Providers Forum. Membership is very broad and includes public sector and 3rd sector providers of services to children and young people in Ceredigion.

Updates are also provided at the Early Years, Childcare and Play Strategy Group which is made up of internal and external representatives involved in early years and play work in Ceredigion.

Insights from the Coronavirus

The Local Wellbeing Plan states the provision and encouragement of children to take part in outdoor activities is essential during the short term recovery period from COVID-

Play Sufficiency Assessment Template

19; while the Children’s Commissioner for Wales Coronavirus and Me Survey highlights some important points with regards to the need for play opportunities. The January 2021 Children’s Commissioner for Wales Coronavirus and Me Survey for Ceredigion asked if children were playing more or less since they have needed to stay at home because of coronavirus. 36% of the group of children selected said they are playing more often since they have needed to stay home because of coronavirus, 31% said they are playing less and 33% said about the same.

The Coronavirus and Me survey also asked what Ceredigion children had been doing to keep a healthy body and mind.

The top 3 activities selected were:

- Playing (100%)
- Exercising (75%)
- Speaking with friends and family (75%)

The intention is through the creation of a new role within the Physical Activity & Play Service, key actions brought up in important surveys and highlighted in the PSA 2022 will be actioned in the new officer’s business plan.

Criteria

This section contains the “matters that need to be taken into account” as set out under section 10 of the Statutory Guidance.

The Criteria column: sets out the data that needs to be available and the extent to which Local Authorities meet the stated criteria.

The RAG status column: provides a drop down box, whereby the Local Authority can show its assessment of whether that criterion is fully met; partially met; or not met. These have been given Red, Amber Green markers, which appear as words in the drop down boxes. *(In the “RAG status column”, Double click on the word STATUS – this will bring up drop-down form fields options, use the arrow down key until the status required RED, AMBER or GREEN- is at the top then press ok)*

Red, Amber Green (RAG) status is a tool to communicate status quickly and effectively.

Criteria fully met.	Fully met
Criteria partially met.	Partially met
Criteria not met.	Not met

The 2022 column enables the local authority to indicate the direction of travel with the insertion of arrows.

The Evidence to support strengths column: should be used to provide the reason for the chosen criteria status and how the evidence is held.

The Shortfall column: should be used to explain the areas in which the Local Authority does not fully meet the criteria.

The Identified Action for Action Plan column: should be used to show the Local Authority action planning priorities for that Matter.

The Comments section: asks some specific questions for each matter that should enable you to give a clear overview of how the Local Authority complies with the intention and implementation of this matter as set out fully in the Statutory Guidance. It also provides the opportunity to identify challenges and how they might be overcome.

Matter A: Population

This section provides an overview of population and demographic data for Ceredigion Local Authority.

RAG Status for Matter A: AMBER

Criteria fully met.	
Criteria partially met.	
Criteria not met.	

Population and Population Change

Ceredigion covers an area of 1,900km² and is mostly made-up of agricultural land, moorland and forestry, with the upland areas to the east forming a significant portion of the Cambrian Mountains.

The latest Welsh Government figures estimates Ceredigion's population to be 72,895 (2020), which is the fourth lowest in Wales. Ceredigion has experienced a fluctuating population since 2001 and it is estimated to have reduced in each year since its population peaked at 75,900 in mid-2012. The number of deaths has consistently exceeded the number of births each year, although there have been some years of population growth as a consequence of net inward migration (for example, during 2009-2012).

Since 2013, there has been a net outward migration, which has resulted in population decline. The latest Welsh Government projections displayed in Figure 1.1 suggests that the population of Ceredigion will continue to decline over the next 25 years, from 72,895 in 2021 to 68,745 in 2043, a 6% decrease and an estimated reduction of approximately 4,150 people. Although the population is set to decline, Ceredigion's older population (65+) is expected to grow significantly over the next 20 years (by 23.7% or +4,305 people), whilst the working age population (16-64) and children (0-15) are expected to decrease.

Age	0-5 years	6-10 years	11-15 years	16-18 years	TOTAL
Ages of children (2020 mid-year estimate)	3,592	3,617	3,565	2,231	13,031

Ethnic Background

Ethnicities other than White British and Irish are concentrated around the two universities and are both more highly qualified (47% of aged 16 and over with a first degree or higher qualification and only 9% with no qualifications, compared to 27% and 21% respectively of the White British and Irish) and more likely to be either in higher professional occupations (11% of other ethnicities) or students (42%) compared with 7% and 16% of the White British and Irish population.

The last Census in 2011 shows that the population of Ceredigion was 96.7% white and 3.3% Black, Asian and Minority Ethnic (BAME), see table below. The majority of the white population (93.8%) are white British or Irish, with over 2,000 identifying as white 'other', the largest proportion of which are Polish. The BAME population of Ceredigion are mainly Asian/Asian British (1,100), followed by Mixed/multiple ethnicity (700), Other Ethnic Group (400) and Black/Black British (300).

	White	Mixed/multiple ethnic groups	Asian/Asian British	Black/ African / Caribbean Black British	Other ethnic group
Ethnic group	96.7%	1.0%	1.4%	0.4%	0.5%

Language

The Assessment of Local Well-being identified that Welsh speaking is highly important for a sense of inclusion and identity, which can have positive well-being outcomes. Being able to speak Welsh is also a requirement for many jobs, particularly in the public sector. Ceredigion is considered as being one of the heartlands of the Welsh language, and despite a substantial student population and significant levels of migration, the results from the last Census in 2011 showed that 47.3% of Ceredigion residents could speak Welsh. This is the third highest percentage of Welsh speakers nationally behind Gwynedd (64.3%) and Anglesey (56.1%).

Language	3-4 years	5-9 years	10-14 years	15-19 years
% children & young people able to speak Welsh by age group (2011 Census)	58.3%	81.6%	82.8%	45.4%

Note: the 15-19 year old cohort of children/young people able to speak Welsh includes young people attending Ceredigion Universities

In the interim between Census results, the Annual Population Survey continues to monitor Welsh language skills. Further intelligence and studies around the Welsh language indicate that the percentage of Welsh language speakers in Ceredigion has been increasing. For example,

the Annual Population Survey revealed that in 2014, 52.7% of Ceredigion's population spoke Welsh, increasing to 60.9% by 2021. The percentage of residents using Welsh every day in Ceredigion has also increased over recent years, from 43% in 2016, to 45% in 2021.

Annual Population Survey: Proportion of people aged 3 or over who say they can speak Welsh in Ceredigion

2014	2015	2016	2017	2018	2019	2020	2021
52.7%	54.0%	54.9%	57.6%	58.9%	59.2%	60.9%	60.9%

Nationally, the results of the Annual Population Survey show that the number of people aged 3 or older who can speak Welsh has been increasing since 2010. In the last year (year ending 30 June 2021) the survey reported that 29.2% of people aged three or older were able to speak Welsh, which equates to around 884,300 people, and is 0.6% higher than the previous year equating to around 17,900 more people.

The level of Welsh language skills differs geographically within the county as different social factors come into play. The more rural settlements, such as, Tregaron tend to have a higher proportion of residents that can speak, read and write Welsh (56%), than the more urban areas, such as Aberystwyth Penglais (situated in Aberystwyth North Community Area) at 18%. This can be attributed to the large proportion of students that reside in Aberystwyth (approximately 39% of Aberystwyth's population), who may be attending the University from elsewhere in the UK or from overseas.

Welsh language skills also vary between age groups. Younger people are more likely to speak Welsh, compared to older people in Ceredigion . This is likely a consequence of the use of Welsh in schools. The additional life-skills of Welsh medium education are wide-reaching to all aspects of well-being.

Number and percentage of Welsh speakers in Ceredigion by age group, 2001 and 2011 Census

	3-15 yrs	16-64 yrs	65+	All over 3 yrs
Able to speak Welsh 2001 Census	8,232 (77.2%)	22,195 (45.9%)	13,868 (54.0%)	37,918 (52.0%)
Able to speak welsh 2011 Census	7,175 (78.4%) 	20,503 (41.9%) 	7,286 (46.4%) 	34,964 (47.3%)

Gypsy Traveller Community

Ceredigion County Council has recently produced its new Gypsy and Traveller Accommodation Assessment 2022, in accordance with the Housing (Wales) Act 2014. Currently there are no local authority Gypsy Traveller sites and only one authorised private site in the County; nor is there any permanent provision for Showmen. There are three known Gypsy Traveller households whose accommodation needs are currently being met by bricks and mortar accommodation. It is recognised that this number may be higher and that further engagement with the Gypsy Traveller community is needed. A number of initiatives have been undertaken to develop the engagement and form an ongoing dialogue, but the onset of the COVID-19 pandemic during 2020/21 impacted on the progress that could be made due to restrictions in place.

The Play Sufficiency Assessment and the Assessment of Local Well-being

The well-being of individuals and communities can be affected by a number of economic, social, environmental and cultural factors. Every Public Services Board (PSB) in Wales is required to produce an Assessment of Local Well-being once every five years. The Ceredigion PSB completed the draft of its latest Assessment in November 2021, following extensive data analysis and engagement during the summer of 2021. The findings of the Assessment are used to support the production of the Play Sufficiency Assessment.

The Assessment of Local Well-being shows that children in Ceredigion feel connected to the natural environment and their attitudes towards outdoor play are positive and many aspects are shared throughout this PSA.

Our engagement with younger people highlighted their desire for more play areas and recreational facilities in Ceredigion:

In the Give Us Support group, stakeholder event, which was facilitated by RAY Ceredigion, the concerns around sufficiency of play were reiterated. The young people that were part of this group noted that there were a lack of things to do in their area because there was no hall or park to meet other people and another noted that they did not feel part of their community because there was nothing to do.

Additionally, these concerns were also mentioned in another stakeholder event with the Ceredigion Children and Young people Services Provider Forum. In this forum clear social and cultural issues were that there was a lack of play and leisure facilities for young people, which was preventing them from participating in arts and culture activities.

In 2020/21, the Pupil Level Annual School Census (PLASC) showed that there were 2,433 pupils in Ceredigion with Special Educational Needs. The West Wales Care Partnership (Population Assessment) reported that in 2020 there were an estimated 1,107 children with a long-term illness/disability in Ceredigion. Projections for 2043 show a decrease to 882.

Please note that the first round of Census 2021 results will be published in March 2022, based on counts rather than surveys, at which point all of the demographic data will be updated and population projections rebased.

What has changed in terms of population and demographic trends since Play Sufficiency Assessment 2019?

The overall population of Ceredigion is projected to decrease by 6% over the next twenty-five years from 72,895 in 2021 to 68,745 in 2043. Out of the twenty two local authorities in Wales, Ceredigion is predicted to have the greatest percentage decrease in population during 2018-2043. The population pyramids highlight that by 2028 the largest projected decreases in the working age group are those aged 22-28 and 45-54. This reduction is largely attributable to the internal (UK) outward migration of these groups to different parts of the UK, which includes a large proportion of students in Ceredigion, who tend to leave the area after graduation to pursue employment and education opportunities outside of the County. These demographic changes have important consequences for the working age population, the resulting impact on the economy and specifically the funding for local public services. Furthermore, it is expected that the ageing population will place further strain on our local health services.

It is a well-known and an often discussed issue that many young people leave the county to pursue opportunities elsewhere in Wales or further afield across the UK. This is partly as a result of a decline in public sector jobs, which have always been an important part of the Ceredigion economy, but also in search of career opportunity and higher value jobs.

How has/will the Local Authority use its population data to plan for sufficient play opportunities locally?

Ceredigion, Carmarthenshire and Pembrokeshire's PSBs worked together on a desktop data gathering exercise to understand well-being in the three local areas. A wide range of local, regional and national sources were considered. Ceredigion also held virtual workshops with PSB partners to obtain local level data and insights for the situation and response analysis, to help validate data and themes. The assessment was 'engagement led' to ensure that the views of our citizens were the main drivers for producing the document, placing them at the heart of the next Well-being Plan. Play was included in this assessment as a Wellbeing Outcome. The results showed that:

- Attitudes of children towards **outdoor play** in Ceredigion are positive.
- The provision and encouragement of children to take part in outdoor activities is essential during the short term recovery period from COVID-19.
- Our engagement with younger people highlighted their **desire for more play areas and recreational facilities** in Ceredigion.

We have previously focused on Flying Start areas and our main towns and rely on feedback from stakeholders to address issues that arise in rural areas. This means that we can drill down to relatively small areas of need. We have good communication with our stakeholders and planning for play happens in partnership with childcare and play providers, family support services, town & community councils and parents/children/young people.

Have there been challenges?

- **Child poverty** in Ceredigion is higher than average and has seen the second highest % increase nationally since 2014/15. In Ceredigion 3,459 children are living in poverty. This is a key **regional issue** affecting Carmarthenshire and Pembrokeshire as well.
- Further research is needed to understand the full impact of the **COVID-19 pandemic** and associated isolation on the **well-being of children** within the different communities of Ceredigion.
- There was limited funding for pure play opportunities (prior to Summer of Fun and Winter of Wellbeing). Our population is scattered and it is difficult to provide for children/young people living in rural areas.
- Similarly, children with diverse needs (eg young carers, disabled children and young people) are spread across the county and it takes a lot of resource to meet their play and recreation needs.

How can these be overcome?

- Play has recently moved departments within Ceredigion County Council. Play now sits within the Wellbeing Centre Service (the council's lead service for the development and delivery of physical activity) of Porth Cymorth Cynnar in the Through Age Wellbeing Model and it is hoped that this will enhance the opportunities for collaboration with internal key partners and targeted groups as well as the third sector.
- The Summer of Fun and Winter of Wellbeing made a significant impact through targeted intervention in Ceredigion. This included Looked After Children, Young People with Disabilities, Young People Living in Poverty and disengaged young people.
- We also fund peripatetic play provision to strengthen community provision, for example, by offering free training through the Play Area Network (a virtual group of all those who own/manage a play area in the county or those with an interest in Play).

Comments

Play Sufficiency Assessment Template

Matter B: Providing for Diverse Needs

The Play Sufficiency Assessment should present data about how the Local Authority and partners aim to offer play opportunities that are inclusive and encourage all children to play and meet together.

Providing for Diverse Needs

How has data been used (or how will the data be used) to address the barriers that children with diverse needs face in accessing inclusive and accessible opportunities for playing?

Ceredigion County Council is going through a re-structure of services to create a Through Age Wellbeing Model. Services involved include Childcare, Play, Wellbeing Centres, Youth Service and specialist targeted services such as Adult and Children's Services, Social Services, Family Support Services, Children with Disability Support and Flying Start. This re-structure will not only bring services closer together but will also allow close collaboration across programmes which will enhance opportunities.

A grant enabling families (who need financial assistance) to get free outdoor play clothing has proved extremely popular with 461 Puddle Suits, 94 Coats and 162 pairs of wellbeing being distributed that will allow toddlers and children to play freely outside, whatever the weather. This will soon be completed by a new Outdoor Coat Grant for older children. This is a project between Families First, Youth Support and Wellbeing Centres.

Have there been challenges?

- COVID has led to closure of established Childcare provision which in turn has led to difficulties in retaining and recruiting playwork qualified staff.
- Sustainability of venues and facilities with increased running costs.
- Many establishments are voluntary led and therefore are run by committees which are tasked with employment and financial management which can be challenging.
- Patchy Afterschool Club and Holiday Provision. Can these be interlinked and establishments work towards being CIW registered? There is cheaper After school / Holiday Provision available run by sports clubs/leisure centres/Urdd clubs. As this is not Care Inspectorate Wales (CIW) registered or inspected, parents are unable to access the financial support from Welsh Government through childcare schemes.
- Lack of Ymuno funding being accessed by Afterschool Club and Holiday Provision. There is also a limited number of hours available for the Cynllun Cyfeirio/Ymuno.
- Transport is also an issue for parents in rural areas, particularly for those with more vulnerabilities (e.g. disabled children and their siblings).
- The Childcare Unit will continue to support the sustainability of the childcare and play sector and ensure that conditions of funding include the need to evidence the provision of a rich play environment.
- There is a good relationship between the Childcare Unit and the Play Service and this has further developed during the recent work on the CSA and PSA. Further collaboration between services are planned and a new officer (jointly funded by both services) will focus on objectives for both areas.
- The Play Service has developed a close relationship with Performance & Research Service and this has enabled the Local Wellbeing Plan to guide and influence the PSA.

- Lack of engagement/consultation with LGBTQ+ community.

How can these be overcome?

- The Play Service and Childcare Unit to work together with unregistered settings to register and complete Quality Assurance Assessment Scheme with CWLWM members and to ensure staff have a relevant Playwork qualification.
- The mobile Youth Provision will develop a pathway to build community capacity for play provision in rural communities.
- A new Engagement and Inclusion manager will be appointed and will work on engagement with LGBTQ+ community.

Comments:

- The Through Age Wellbeing Model will help improve internal collaboration.
- There are good third sector networks in Ceredigion to ensure that we hear about barriers that children with diverse needs face in accessing inclusive and accessible opportunities for play.

Matter C: Space available for children to play: Open Spaces and Outdoor unstaffed designated play spaces

The Local Authority should recognise that all open spaces within their area are potentially important areas where children can play or pass through to reach other play areas or places where they go.

Open Spaces

How has the Local Authority ensured collaboration between Open Space Assessments / Green Infrastructure Strategies and Play Sufficiency Assessments to improve spaces for play?

Play Areas and Play Spaces has been included in the Local Development Plan under sub policies LU 22 -24. Play was also included in the Green Infrastructure Assessment 2020 with specific consultation on Children's Play Areas.

Have there been challenges?

Planning documents are not easy for children and their families to understand and respond to.

How can these be overcome?

Easy read documentation and specific consultations through local play providers.

Planning have established a system where adults who advocate for play are sent an email when a planning application comes in that may affect children's play opportunities – this could be promoted so that more adults are on this list.

Comments:

Outdoor unstaffed designated play spaces

How has the local authority considered all issues of accessibility in play space development?

The Council has transferred all play areas (apart from one) to community ownership. This means that we have no influence on the quality or accessibility of the play spaces. However, we do offer advice and funding to improve community play spaces and will include a requirement for quality and consultation in future grant application forms.

Have there been challenges?

Article 12 of the UNCRC (Respect for the views of the child) says that when adults are making decisions that affect children, children have the right to say what they think should happen and have their opinions taken into account. Sometimes planning decisions are taken that affect

children’s play opportunities and we want to develop a process that enables children and young people to give their view on these decisions.

How can these be overcome?

Develop an agreed method, in partnership with young people, for children and young people to participate in planning decisions that affect them. Include the need for a policy/plans regarding accessibility in criteria for Local Authority grants to improve community play spaces. Develop a ‘Disabled Young People as Consultants’ group and carry out an audit of accessibility of community play spaces (this will be resource intensive and very dependent on non-time restricted funding).

Supervised play provision

Where the Local Authority has assessed settings as part of the Childcare Sufficiency Assessments (CSAs), how have these settings been assessed in respect of the quality of play opportunities they provide and offer?

The LA does not assess the settings within the CSA, the purpose of the CSA is to assess the sufficiency and amount of Childcare within Ceredigion. However, the CSA does ask if any Childcare or Play settings have completed a Quality Assurance Scheme with either Mudiad Meithrin, Pacey Cymru, Early Years Wales (former Wales PPA) who have their own schemes.

Since the last CSA 2017 - 2022, Care Inspectorate Wales (CIW) have changed the category for Afterschool Clubs (ASC) and Holiday Playschemes (HP). Initially, these were listed as Childcare, however they are now classed as Play Provision and as such all staff are required to be appropriately qualified in Playwork.

CIW continues to inspect the ASC and HP as well as any Open Access Play Sessions that are registered. When CIW conduct their inspection they look at four areas in particular, Wellbeing, Care and Development, Environment and Leadership and Management.

Childcare and Play providers who apply for the sustainability grant are asked as part of their application form how do they ensure they provide a play rich environment and any additional grant opportunities are shared with the sector. This was added to the application form following a recommendation from the previous PSA Report.

The Childcare Unit continues to provide information around the benefits of play. Playwork training is offered by Clybiau Plant Cymru Kids Clubs (CPCKC) and is promoted by the Childcare Unit.

How has provision that is not part of the CSA been assessed in respect of the quality of play opportunities they provide and offer?

As previously mentioned the purpose of the CSA is to assess the sufficiency and amount of Childcare within Ceredigion. The CSA addresses all forms of Childcare and Play provision, whether it is unregistered or registered.

Have there been challenges?

Since March 2020, there have been no physical visits to any Childcare or Play setting due to COVID-19 and Local Authority restrictions. This has been a big challenge as all half termly visits have now had to be conducted virtually. This means that the Development Officers do not get to observe in the same way and find it more difficult to advise settings based on these observations. Due to Lockdown restrictions a number of Childcare and Play settings had to close and staff were placed on furlough and were therefore unavailable to receive e-mails/telephone calls.

Another challenge during the COVID-19 pandemic was that Childcare and Play settings that were located on and within school sites were unable to open for a period of time. The need for Childcare and Play settings to stay in their 'bubbles' was also an issue as this would mean some children were isolated as there was no one else from their School 'bubble' attending an Afterschool Club meaning they would play on their own. It was not sustainable for settings to staff bubbles which only had one or two children. In addition, Afterschool Clubs reported to ensure School 'bubbles' were kept, children did not freely move around and were restricted to certain areas to avoid mixing.

During the School Holidays there was a lack of universal Childcare and Play provision, which was a challenge families and children particularly working parents and some children supported by Social/Children's Services. This is continuing to be a challenge today.

How can these be overcome?

All Childcare and Play settings had to close for a period of time. Due to financial and staffing pressures some have permanently closed. This meant a reduction in registered Childcare and Play provision available for families. However, the Childcare Unit continue to support new and existing Childcare and Play providers to ensure there is enough Childcare and Play provisions available. Now that Childcare and Play provision have started to re-open, the lines of communication between the Childcare Unit and providers is improving.

The Childcare and Play Guidance provided by Welsh Government now allows mixing of children meaning they do not need to be kept in specific 'bubbles'.

The long-term aim is to look at the impact that unregistered holiday provision has on registered Childcare and Play providers. In particular where the unregistered settings operate under the exemption list to avoid registration with CIW.

The Children's Commissioner for Wales Coronavirus and Me Survey highlights some important points with regards to the need for play opportunities. The intention is with the creation of a new role within the Physical Activity & Play Service key actions brought up in important surveys and highlighted in the PSA 2022 will be actioned in the new officer's business plan.

The January 2021 Children's Commissioner for Wales Coronavirus and Me Survey for Ceredigion asked if children were playing more or less since they have needed to stay at home because of coronavirus. 36% of the group of children selected said they are playing more often since they have needed to stay home because of coronavirus, 31% said they are playing less and 33% said about the same.

The Coronavirus and Me survey also asked what Ceredigion children had been doing to keep a healthy body and mind.

The top 3 activities selected were:

- Playing (100%)
- Exercising (75%)
- Speaking with friends and family (75%)

Comments:

Play Sufficiency Assessment Template

Matter E: Charges for play provision

The Local Authority should consider which play opportunities involve a charge and the extent to which the Local Authority takes these charges into account in assessing for sufficient play opportunities for children living in low income families as set out in the Statutory Guidance.

					them and there are no costings.	
	The Local Authority records the provisions where grants or subsidies are available for play providers	AMBER	AMBER	<p>Information about grants available for play tend to be dispersed via mailing lists to the Play Area Network (PAN). This enables the LA to communicate directly with play providers about grants and subsidies.</p> <p>Ceredigion community grant is available to play providers, information about this grant is easily available on LA website.</p> <p>As well as carrying out funding searches for play providers, Ceredigion Association of Voluntary Organisations (CAVO) was involved with the advertising, promotion, decision making and distribution of the Winter of Wellbeing Grant.</p>	Capacity of the Play Area management committees can be a problem. If play providers do not have the capacity to take part in these groups or join the mailing lists, they would not be aware of grants and subsidies available.	

Play Sufficiency Assessment Template

LA Ref No	Criteria	RAG Status 2019	RAG Status 2022	Evidence to support strengths	Shortfalls	Identified actions for Action Plan
				All Winter of Wellbeing Capital and revenue grant applications are available on newly created MS Teams sites with applications, minutes of meeting and award decision available.		
	The Local Authority provides subsidised transport for children travelling to play opportunities	RED	AMBER	The Summer of Fun and Winter of Wellbeing has helped with this in 2021. Transport is provided for groups that are vulnerable (e.g. Young Carers, children with disabilities, looked after children and those at risk of offending to get them to play and recreational opportunities.	The LA does not usually provide subsidised transport specifically for travel to play opportunities. (This year has been the exception to the rule). It's is difficult to see this changing long term.	

Charge for play provision

How is the Local Authority ensuring that children have access to no or low-cost provision?

This is improving and over the last 12 months many improvements have been made with opportunities now identifiable through Dewis. We have got some way to go to get all provision on there. CCC try and ensure that children who need it have access to free or low-cost provision. Many services (such as Flying Start) are targeted for areas of deprivation. Venue based family support is subsidised by the Local Authority, they are located in Borth, Llandysul, Lampeter, Tregaron, Aberaeron, Penparcau and Cardigan, there is no charge for their activities. The Local Authority also subsidises no/low cost provision and activities for Young Carers and for children/young people with disabilities. The Child Development Fund and Flying Start outreach funding is used to pay for free childcare for referred children. Wellbeing Centres around the authority will also be able to work with partner services to provide improved free/low cost provision. The Summer of Fun and the Winter of Wellbeing provided numerous opportunities for targeted young people, however, the long term benefit of these grants remains untested.

There are good links with CAVO and the Community Connectors are also able to promote opportunities, provision or grants. The Ceredigion Council Community Grant is available to play providers and information about this grant is available on the council website.

Have there been challenges?

Covid has proved a huge challenge for not only young people's provision but also to family support and for CCC staff. It continues to challenge many services.

Ceredigion is developing new data systems through the Through Age Wellbeing Model and this will help services to know exactly where all children living in low income families are located.

How can these be overcome?

Further improvements and information need to be added to the Dewis website. The Wellbeing Centres Service (Play included) are looking into how opportunities are marketed and promoted. This will hopefully allow a better flow of information and allow the right information to reach the right people.

The Play service being incorporated to the Through Age Physical Activity & Play Service is also key to developing programmes in the local authority. We will continue to circulate information about grants and funding to the Play Area Network and continue to support collaboration between Early Years, family support, childcare and play provision via the Early Years, Childcare and Play strategy group.

Comments:

Matter F: Access to space/provision

The Local Authority should consider all the factors that contribute to children’s access to play or moving around their community.

Access to space/provision

How has the Local Authority ensured collaboration to ensure children can move around their communities to increase access to opportunities for playing?

The Active Travel Design Guidance and other highways design guidance provides for standards that ensure accessibility improvements for all. CCC review the speed limits on County Council-maintained roads periodically with the next review likely to follow work to implement Welsh Government intention to change to a default 20 mph speed limit on restricted/ street-lit (30 mph speed limit) roads across Wales (from April 2023). CCC also work in partnership with 'Go Safe' Wales Safety Camera Partnership, Police, representatives of local communities and through multi-agency Ceredigion Community Safety Partnership - Road Safety Sub-Group. Ongoing monitoring takes place in partnership with these key partners.

Active Travel and Safe Routes in Community Schemes include the installation of cycle / scooter shelters at schools. A programme of road safety education, training and awareness is provided to primary school children by County Council Road Safety Team. This includes 'Kerbcraft' child pedestrian training and National Standards Cycle Training to equip children with basic skills transferable to everyday journeys.

Have there been challenges?

Previously, Play has been supported by annual grants which has been difficult to plan long term. This is still the case, however, there has been additional funding this year from Welsh Government through the Summer of Fun and Winter of Wellbeing.

Covid has proved difficult. However, the LA has provided support to Town & Community Councils through advice and information as well as staff support for local inspections.

Cycle training for children is dependent upon year-on-year grant funding allocations from the Welsh Government which are based on a formula that includes population numbers. The amount of grant funding has steadily declined over time.

Active Travel funding is directed to our main urban areas only (Aberystwyth, Cardigan and Lampeter). Some road safety engineering schemes in other locations will be subject to robust business case, prioritisation and availability of resources.

How can these be overcome?

Services are now working a lot closer together due to the Through Age Wellbeing Model re-structure. This has helped to utilise additional funding.

Comments:

Information, publicity, events

How has the Local Authority positively used information to support access to play provision?

The Local Authority is active on many social media platforms both as Ceredigion Actif (now Wellbeing Centres) and the Corporate Press Office. Other departments such as the Youth Service are also active and each department supports each other. Play opportunities are advertised on these platforms. This was especially important during the Summer of Fun and Winter of Wellbeing provision where important guidelines were distributed from WG. We also asked all organisations who were in receipt of the WG grants to share their advertising with us which we shared further.

Have there been challenges?

We are not professionals in creating posters and advertising campaigns. These things take time – quite often, time that staff haven't got to spare. We have invested in professional packages with Canva.com and the Hootsuite social media platform. It is also assumed that the target audience are social media users and that this is their source of accessing information.

How can these be overcome?

As part of the Through Age Wellbeing Model re-structure a Marketing & Memberships post has been included; greater engagement with the council's corporate communications team. Greater use of the local press.

Comments:

Matter G: Securing and developing the play workforce

The Local Authority should provide information on the organisational structure of the policy area which manages the play agenda and the play workforce.

Securing and developing the play workforce

How has the Local Authority met the requirement to undertake or secure the managerial and delivery functions necessary to achieve sufficient play opportunities?

There was previously a Play sub-group that brought together education, childcare, parks and play areas, health and safety, planning, and highways who were able to look at play within the county as a holistic approach. (this folded due to lack of attendance and consistent funding to co-deliver projects).

How has the Local Authority ensured it understands and provides for the workforce development needs of the play workforce (as defined in *Wales: A Play Friendly Country and above*)?

The Childcare Unit has funded approximately 22 staff from registered play and childcare settings to complete Playwork Level 3 training. There has never been any designated funding from WG to enable a play development role to be funded with CCC so this must be taken into account when acknowledging any gaps in delivery on the PSA.

How has the Local Authority ensured it understands and provides the playwork workforce (as defined in *Wales: A Play Friendly Country and above*)?

The Local Authority does not currently (or previously) employ a play development officer. Some Childcare Unit staff have Playwork qualifications and are able to support childcare providers with understanding Playwork.

Have there been challenges?

The biggest challenge is coordinating the multiple levels of Play (training, provisions, support to community groups, distributing grants, running programmes) without any development staff.

How can these be overcome?

There are proposals for this to change as part of the Through Age Wellbeing Model re-structure. Designated and continued funding from WG to all 22 local authorities will enable the development and delivery of the PSA action plans across Wales.

Comments:

Play Sufficiency Assessment Template

Matter H: Community engagement and participation.

The Local Authority should consult widely with children, their families and other stakeholders on their views on play provision. It should also promote wide community engagement in providing play friendly communities.

				has ensured that play opportunities have been enhanced by engaging with young people regarding their play needs at such venues.		
	<p>The Local Authority promotes community engagement in:</p> <ul style="list-style-type: none"> - making space available and suitable for play - organising play events - positive attitudes towards children and play - training on the importance of play. 	AMBER	AMBER	<p>The LA has a comprehensive Community Engagement Policy and accompanying Toolkit on our internal website for all staff to access.</p> <p>Ceredigion Youth Service Open access youth provision provides a space and an environment where both structured activities and self-directed play can occur side by side. A range of play types can often be observed in such spaces such as creative, communication, locomotor and object play.</p> <p>Having attained the National Participation Standards Kite Mark,</p>	<p>CCC does not have a consultation team and therefore all consultations and questionnaires have to be coordinated through departmental services.</p> <p>Covid has disrupted this service and most consultations and questionnaires have been virtual (except for children's questionnaires).</p>	<p>The Engagement and Inclusion team will take the findings of the PSA into account when developing the 2022/23 workplan.</p>

Play Sufficiency Assessment Template

LA Ref No	Criteria	RAG Status 2019	RAG Status 2022	Evidence to support strengths	Shortfalls	Identified actions for Action Plan
				<p>Ceredigion Youth Service engagement/participation with young people in schools and community based settings such as our youth centres, follows the principles of the kite mark. In doing so, engagement with young people has highlighted their need to spend more time outdoors in a supported environment. As a result, Ceredigion Youth Service have delivered universal activities such as nature reconnect days and summer camps.</p> <p>The Active Young People service within Ceredigion active coordinate the School Sport Survey with key aspect of play and free time included.</p>		

Community engagement and participation.

How has the Local Authority effectively used existing mechanisms for children's participation and family consultation processes with regards to play?

For the purpose of this PSA consultations from the Childcare Unit, Youth Service, Play Service, Active Young People, the Children's Commissioner for Wales 'Coronavirus and Me' Survey and the Assessment of Local Wellbeing through Ceredigion Public Services Board have been used. RAY Ceredigion and Wellbeing Centres have also helped coordinate the children's questionnaires. Findings from the survey to inform the recommissioning of services to support families with children aged 0-11 were also taken into account.

Specific PSA questionnaires were targeted at the Play Area Network, recipients of Winter of Wellbeing Capital and Revenue Grants, all participants in AWPOG related activities as well as community organised play events.

A key contributor questionnaire was arranged in partnership with the Childcare Unit to ensure there was important collaboration with the Childcare Sufficiency Assessment.

We recognise the role of the elected members who represent the interest of people in their ward. The process will include elected members at scrutiny committee and at full cabinet level.

Have there been challenges?

Covid has provided a huge barrier for public engagement but this has been overcome through learning digital alternatives. Consultation fatigue has to be considered by public bodies and ensuring that examples of action resulting from the information provided are promoted.

How can these be overcome?

See above.

Family policy and initiatives						
LA Ref No	Criteria	RAG Status 2019	RAG Status 2022	Evidence to support strengths	Shortfalls	Identified actions for Action Plan
	Family support initiatives provide up to date information and support for parents to enable them to support their children to play	AMBER	AMBER	All family support providers promote the importance of playing with your child. Those commissioned by the Local Authority are required to align their work with WG guidance, 'Parenting in Wales – Guidance on Engagement and Support' which supports this. Incredible Years is the accepted course for family support which includes a strong focus on child led play.	There is no requirement for all family support workers to undertake play training .	Revitalise the Active Families programme in the Flying Start Centres and the Family Centres.
	The local implementation of the Families First programme recognises the importance of play and contributes to the provision of rich play opportunities	AMBER	AMBER	Quote from Lampeter FC parent, "We absolutely loved the sessions, there is nothing better than encouraging children to be outdoors. Being amongst nature, so many health and wellbeing benefits. A developed new skill, tried new activities and had the confidence to take part in		

Play Sufficiency Assessment Template

				some activities independently. We will be definitely looking out for further sessions during the school holidays. “		
	Plans to reduce the impact of Adverse Childhood Experiences recognises the importance of play and contributes to the provision of rich play opportunities	RED	AMBER	<p>The Education Department and the Youth Service has delivered lots of training to schools staff and other on ACEs. The SEN service has used Lego therapy.</p> <p>ACEs training is available to all CCC staff through the Ceri online service.</p>	To be more collaborative so that all services are aware what typ of training is being delivered to who. Children’s Services, Education, YS and with Wellbeing Centres and Play to be integral to the delivery.	

Inter-generational policy and initiatives

LA Ref No	Criteria	RAG Status 2019	RAG Status 2022	Evidence to support strengths	Shortfalls	Identified actions for Action Plan
	There are a range of play based approaches to inter-generational activity	AMBER	AMBER	Pre-Covid, schools were engaging more with old people’s homes. There have been some studies on the benefits for children and OAPs. Examples within the county – Talgarreg invite local OAPs to join children	Covid has had a clear effect on these activities due to the high risk category of residents. These will resume once deemed safe.	

				<p>for lunch sometimes. Plascrug School held Intergenerational activities.</p> <p>The NERS team has worked with Ysgol Bro Pedr in Lampeter and Canolfan Steffan Residential Homes residents to deliver mixed activities at Lampeter Leisure Centre.</p> <p>Our 3rd Sector Family Centres do a lot of intergenerational work, e.g. Families at Tregaron Family Centre wanted to continue with their intergenerational project. FC staff successfully applied for Lottery funding to distribute resource packs to families and they made handmade items to give to residents at their local residential home for the elderly for Christmas. The families are now working on other ideas they've had to that will maintain their links with the residents at the home.</p>

Health and Safety						
LA Ref No	Criteria	RAG Status 2019	RAG Status 2022	Evidence to support strengths	Shortfalls	Identified actions for Action Plan
	The Health and Safety policies explicitly recognise the value of children being able to experience risk and challenge	AMBER	AMBER	<p>The LEA and schools encourage children to take part in activities which may be challenging or risky and pupils often visit outdoor adventure centres such as at Llain or Llangrannog. All activities of this nature are recorded on the 'Evolve System' which records all Risk Assessments and plans.</p> <p>The LA's Corporate Health & Safety Unit does not have any direct influence on the provision of play within the authority apart from play in schools.</p> <p>For schools the H&S department provide clear input for their play areas and equipment. They look over schools Risk Assessments and provide assistance and provide guidance to make</p>		

Play Sufficiency Assessment Template

				the school day the best experience possible.		
	The Health and Safety policies and procedures incorporate the risk-benefit approach to health and safety assessments as recommended by the Health and Safety Executive (HSE)	AMBER	AMBER	As above.		
	The Local Authority offers the provision of insurance through the Local Authority scheme to all third sector play providers and community councils	RED	RED	The LA does not offer insurance for a third party/ community councils and there are no plans to do so.		

Play within relevant policy and implementation agendas

Play within relevant policy and implementation agendas

The Local Authority is developing a successor to its "Sport and Recreational Activity Strategy 2014-2020", the proposal is to develop a Physical Activity & Wellbeing Plan that contributes to a wider Health & Wellbeing Plan. The decision to adopt a wider Physical Activity approach is to increase the recognition of the contribution that activities such as play and active travel make to getting people physically active and that opportunities are developed to increase that contribution.

Responsibility for Play within the local authority is transferring to the Wellbeing Centres Service within Porth Cymorth Cynnar who are the council's lead service for the development of physical activity. This is in recognition of the potential that exists for Play to have a greater impact on the health and Wellbeing of the citizens of Ceredigion and to improve the collaboration opportunities with other initiatives that are being developed and delivered.

Please use this section to highlight successes of collaboration across policy areas to improve play opportunities.

Have there been challenges?

Sufficient capacity within the Local Authority to proactively develop play;
Lack of revenue funding for play development;
Sporadic investment by Welsh Government and lack of long term investment;
Lack of co-ordination of Welsh Government funding, lots of individual pots.

How can these be overcome?

Staffing Redesign within the Wellbeing Centre Service as part of the Throughage & Wellbeing Programme aims to create additional capacity within the Local Authority for the development of play within the county.

Increased commitment for the development of play from Welsh Government through longer term funding and increased flexibility of how it can be utilised.

Comments:

Conclusion

It is evident from the Play Sufficiency Assessment 2022 that there are some areas of very good practice where planning for and supporting good quality play opportunities works well. There remains however issues/shortcomings to address.

The following actions have been prioritised as areas of action required over the next 3 years:

- Improve Play provision in rural areas
- Improve Welsh Language play provision
- Ensure there are single gender play opportunities available
- Ensure that there are accessible play opportunities for Young Carers
- Carry out Play Value Assessments and Access Audits
- Ensure that there is an appropriate way for young people to give their views on planning policy / applications
- Investigate the possibility of registering Wellbeing Centres with Care Inspectorate Wales (CIW)
- Help Play Providers provide a rich play environment
- Improve accessible play information on DEWIS
- Work with Sustrans to promote safe active travel to play areas
- Provide important continued professional development for paid and unpaid play workers
- Employ a new officer with responsibilities for developing play in Ceredigion
- Continue to build strong working relationships with key partners
- Ensure Play is recognised and understood at a strategic level within organisations
- Work with Schools Services to ensure there are rich play environments in our schools.

Way forward

The Priorities listed above have been set out into a Play Action Plan. Actions and targets have been agreed with the contributing teams. Some of these actions are included in the action plans of those individual teams and some are entirely new. The Play Action Plan will be monitored regularly via team action plan reviews as well as by Play Development.

Signed: *Alwyn Davies*

Date: 01.06.22

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

This **Integrated Impact Assessment tool** incorporates the principles of the Well-being of Future Generations (Wales) Act 2015 and the Sustainable Development Principles, the Equality Act 2010 and the Welsh Language Measure 2011 (Welsh Language Standards requirements) and Risk Management in order to inform effective decision making and ensuring compliance with respective legislation.

1. PROPOSAL DETAILS: (Policy/Change Objective/Budget saving)

Proposal Title	Play Sufficiency Assessment 2022				
Service Areas	Porth Cymorth Cynnar – Wellbeing Centres	Corporate Lead Officers	Elen James	Strategic Director	James Starbuck
Name of Officer completing the IIA	Carwyn Young / Alwyn Davies	E-mail	Carwyn.young@ceredigion.gov.uk / Alwyn.davies@ceredigion.gov.uk	Phone no	07812487800

Please give a brief description of the purpose of the proposal

The Welsh Government recognises its aim of creating a play friendly Wales and to provide excellent opportunities for our children to play. Under section 11(1) of the Children's and Families Wales Measure 2010 there is an obligation on each County Council regarding play opportunities.

Since 2013 and every 3 years since, each local authority has to complete a Play Sufficiency Assessment (PSA). Each PSA should be published on the LA website. The duty consists of two elements; firstly, an assessment of local play sufficiency; and secondly, an action plan to secure sufficient play opportunities so far as reasonably practicable.

The Welsh Government defines Play as "*any recreational activity*" and sufficiency, in relation to play opportunities, is about the "*quantity and quality of opportunities for children to play*".

The PSA includes:

- Demographic profiles of the area;
- An assessment of:
- Open space and potential play area;
- Dedicated play provision;
- Recreational provision;
- Other factors that promote play opportunities including planning, traffic, transport, information, publicity and workforce development.

This is the 4th Play Sufficiency Assessment carried out by Ceredigion County Council. An assessment toolkit is provided by Welsh Government to support the process which is split into 9 sections (matters). There is a requirement to consult widely with partners,

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

the community, children & young people and parents.

The 9 matters are:

- A. Population
- B. Diverse needs
- C. Space available to play
- D. Supervised provision
- E. Charges for play provision
- F. Access to space/provision
- G. Workforce
- H. Community Engagement & Participation
- I. Policies & Implementation

Who will be directly affected by this proposal? (e.g. The general public, specific sections of the public such as youth groups, carers, road users, people using country parks, people on benefits, staff members or those who fall under the protected characteristics groups as defined by the Equality Act and for whom the authority must have due regard).

Play is available for anyone in the age range 0-18 therefore the PSA specifically looks at opportunities and provision in this age range. Some recent grants such as the Summer of Fun and Winter of Wellbeing were extended to include 0-25 year olds. Play also looks at open access provision which applies to registered provision for children under 12 years old. The purpose of open access provision is to provide staffed play opportunities for children, usually in the absence of their parents. Therefore the PSA affects all young people and parents living in and who visits Ceredigion. This includes the most vulnerable in our society and people with Protected Characteristics under the Equality Act 2010.

- Age
- Gender reassignment
- Sex
- Race – including ethnic or national origin and nationality
- Disability
- Pregnancy and maternity
- Sexual orientation
- Religion or belief
- Marriage or civil partnership, but only in the respect of the requirement to have due regard to the need to eliminate discrimination

VERSION CONTROL: The IIA should be used at the earliest stages of decision making, and then honed and refined throughout the decision making process. It is important to keep a record of this process so that we can demonstrate how we have considered and built in sustainable development, Welsh language and equality considerations wherever possible.

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

Author	Decision making stage	Version number	Date considered	Brief description of any amendments made following consideration
Carwyn Young Alwyn Davies	Cabinet	1.0	05/07/22	Original Version

COUNCIL STRATEGIC OBJECTIVES: Which of the Council's Strategic Objectives does the proposal address and how?

Boosting the Economy	The Play Sufficiency Assessment (PSA) will promote health and wellbeing through the provision of services and opportunities for young people in Ceredigion. Ranging from open access facilities, to childcare to specific provision through specific grant programmes. CCC, other statutory services and the Third Sector will offer play opportunities for universal, focused and target groups, which will have a positive impact on the economy, through ensuring that Ceredigion has both a fit and healthy community and workforce. The PSA will also provide employment opportunities through part time and full time posts.
Investing in People's Future	Many Play based initiatives will impact early years and will have a life-long positive influence on people's lives. Play impacts social, mental and physical wellbeing.
Enabling Individual and Family Resilience	Individual and family resilience will be increased by focussing on universal and targeted early years opportunities. Collaboration between CCC services (Childcare Unit and Early Intervention & Families First) will enable universal access to Play and link to the Through-Age Wellbeing Programme. This will include the Third Sector and local Charities for those who may be vulnerable and need further support.
Promoting Environmental and Community Resilience	Porth Cymorth Cynnar will promote lifelong learning and skills services through the Winter of Wellbeing and Summer of Fun grants. This will increase people's participation in society, building social connectivity and increasing social capital and community cohesion. Environmental resilience will be promoted via the implementation of the programme which will take into account Ceredigion County Council's net zero carbon ambition and environmentally friendly procurement.

NOTE: As you complete this tool you will be asked for **evidence to support your views**. These need to include your baseline position, measures and studies that have informed your thinking and the judgement you are making. It should allow you to identify whether any changes resulting from the implementation of the recommendation will have a positive or negative effect. Data sources include for example:

- *Quantitative data - data that provides numerical information, e.g. population figures, number of users/non-users*
- *Qualitative data – data that furnishes evidence of people's perception/views of the service/policy, e.g. analysis of complaints, outcomes of focus groups, surveys*
- *Local population data from the census figures (such as Ceredigion Welsh language Profile and Ceredigion Demographic Equality data)*
- *National Household survey data*
- *Service User data*

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

- *Feedback from consultation and engagement campaigns*
- *Recommendations from Scrutiny*
- *Comparisons with similar policies in other authorities*
- *Academic publications, research reports, consultants' reports, and reports on any consultation with e.g. trade unions or the voluntary and community sectors, 'Is Wales Fairer' document.*
- *Welsh Language skills data for Council staff*

2. SUSTAINABLE DEVELOPMENT PRINCIPLES: How has your proposal embedded and prioritised the five sustainable development principles, as outlined in the Well-being of Future Generations (Wales) Act 2015, in its development?

Sustainable Development Principle	Does the proposal demonstrate you have met this principle? If yes, describe how. If not, explain why.	What evidence do you have to support this view?	What action (s) can you take to mitigate any negative impacts or better contribute to the principle?
Long Term Balancing short term need with long term and planning for the future.	The PSA will address the findings of the consultative evidence and previous research into Play in Ceredigion: With Play recently coming over to the Wellbeing Centre Service, this has provided an opportunity to grow opportunities linked to being physically active.	Consultations linked to PSA 2022. Previous PSA in 2019.	Improved use of data to identify needs. Citizen engagement to ensure the services provided meet the identified need. Collaboration across all of the Through Age Wellbeing Programme to ensure the contribution of Wellbeing Centres is being maximised.
Collaboration Working together with other partners to deliver.	Collaboration with partner agencies is embedded into the Through Age Wellbeing Model. This includes multi-agency working via the Wellbeing Centres Service. The PSA aims to improve Play opportunities for the young people of Ceredigion.	Evidence can be seen through the Children & Young People's Partnership working group. Winter of Wellbeing and Summer of Fun grant recipient organisations	We will take a strategic approach on collaboration with the Third Sector and key partner agencies to mitigate negative impacts and to enhance positive impacts via the Through Age Wellbeing Programme and the Children's & Young People's Partnership.

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

<p>Involvement Involving those with an interest and seeking their views.</p>	<p>Key Play Service Providers have contributed to the PSA.</p> <p>Children and Family engagement has taken place to ensure the PSA meets their needs, this will include current Children, Families and members of the Play Area Network who manage parks and playareas in Ceredigion.</p> <p>Engagement and involvement was via electronic surveys as these were carried out during Covid restrictions.</p> <p>This included staff involvement and engagement.</p>	<p>Key information will be included in the PSA.</p>	<p>Needs and issues identified from involvement and engagement with service users will be identified and included in the action plan.</p>
<p>Prevention Putting resources into preventing problems occurring or getting worse.</p>	<p>For every £1 in sport in Wales there is a return of £2.88, according to the Sport Wales Social Return on Investment in sport report.</p> <p>£3,428m of benefits for Welsh communities was generated from participating and volunteering in sport in 2016/17</p> <p>A breakdown of the overall figure shows the social value of enhanced social capital is £651.47m; enhanced education is £91.15m; and reduced crime is £2.17m. The social value of improved health is £295.17m.</p> <p>Subjective wellbeing accounts for a significant proportion of the social value generated in Wales (60.6%).</p>	<p>Sport Wales Social Return on Investment in Sport Report (2018)</p> <p>The Wales SROI model estimates the value of the following outcomes:</p> <ul style="list-style-type: none"> • Health (reduced risk of coronary heart disease and stroke; breast cancer; colon cancer; Type 2 diabetes; dementia, clinical depression and improved good health for participants) • Subjective well-being (improved subjective well- 	<p>Develop and implement policies and strategies at the Porth Cymorth Cynnar stage to prevent needs and health issues developing. This will include upstream and preventative early interventions via Wellbeing Centres, Lifelong Learning and Skills, Early Intervention and Support and Prevention.</p>

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

	<p>Prevention and Early Intervention is one of the fundamental principles of the Social Services and Wellbeing (Wales) Act 2014. The aim is to increase preventative services within the community to minimise the escalation of critical need.</p> <p>Welsh Government investment through Winter of Wellbeing and Summer of Fun exceed £300k for Ceredigion.</p>	<p>being for participants and volunteers)</p> <ul style="list-style-type: none"> • Social capital (improved social capital for communities) • Education (improved educational attainment and enhanced human capital); • Crime (reduced criminal incidences) • Non-market benefits acquired by sports organisations utilising volunteers <p>We will monitor and gather evidence on the implementation and the delivery of the Through Age Wellbeing Programme.</p>	
<p>Integration Positively impacting on people, economy, environment and culture and trying to benefit all three.</p>	<p>The PSA will provide an opportunity to work with services across the entire Through Age and Wellbeing Programme.</p> <p>Although sitting as part of Porth Cymorth Cynnar, services such as Museum, Early Years, Childcare, Social Service, Looked After Children, Youth Service will integrate as part of the work programme for the PSA.</p>	<p>Integration across services and between staff is evidenced in the Through Age and Wellbeing Programme.</p>	<p>We will aim to capture and evidence the wider benefits that the PSA brings to the community through exploring Social Return on Investment Models.</p> <p>We will also aim to capture qualitative examples of the difference made to users through accessing the various Play based opportunities available.</p>

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

	<p>Supporting the people of Ceredigion's wellbeing and health integrates across boosting a range of socio-economic factors including the economy and community cohesion.</p> <p>Potential exists to integrate with the environment by green prescribing for wellbeing and health via the Wellbeing Centres.</p>		
--	---	--	--

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

3. WELL-BEING GOALS: Does your proposal deliver any of the seven National Well-being Goals for Wales as outlined on the Well-being of Future Generations (Wales) Act 2015? Please explain the impact (positive and negative) you expect, together with suggestions of how to mitigate negative impacts or better contribute to the goal. We need to ensure that the steps we take to meet one of the goals aren't detrimental to meeting another.

Well-being Goal	Does the proposal contribute to this goal? Describe the positive or negative impacts:-	What evidence do you have to support this view?	What action (s) can you take to mitigate any negative impacts or better contribute to the goal?
<p>3.1. A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs.</p>	<p>Promoting physical, social and mental health and wellbeing means that more people will be economically active, healthy and that there will be greater productivity. Increased health and wellbeing also means that people would also have reduced carer responsibilities for family and friends.</p> <p>This will have a positive impact on prosperity.</p>	<p>The latest Welsh Government projections displayed in Figure 1.1 suggests that the population of Ceredigion will continue to decline over the next 25 years, from 72,895 in 2021 to 68,745 in 2043, a 6% decrease and an estimated reduction of approximately 4,150 people. Although the population is set to decline, Ceredigion's older population (65+) is expected to grow significantly over the next 20 years (by 23.7% or +4,305 people), whilst the working age population (16-64) and children (0-15) are expected to decrease.</p>	<p>Ongoing monitoring of the PSA action plan to tackle any negative impacts and enhance any positive impacts as they arise.</p>

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

<p>3.2. A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g. climate change).</p>	<p>Environmental resilience will be promoted via the implementation of the programme which will take into account Ceredigion County Council's net zero carbon ambition and environmentally friendly procurement. Potential exists to integrate with the environment by green prescribing for wellbeing and health through the PSA.</p>	<p>Evidence via Ceredigion County Council's Net Zero Carbon Programme and procurement data.</p>	<p>Ensure that net zero carbon steps, environmentally friendly procurement and green prescribing are mainstreamed in the Through Age Wellbeing Programme.</p>
<p>3.3. A healthier Wales People's physical and mental wellbeing is maximised and health impacts are understood.</p>	<p>Actions from the PSA can help to prevent long term needs and illnesses developing. By working with other PCC services such as Lifelong Learning and Skills, Early Intervention and Support and Prevention and Wellbeing Centres, the PSA will provide all types of opportunities to positively impact health. Further collaboration with statutory services and third sector organisations will form an collaborative approach to maximise health benefits.</p>	<p>53% of Ceredigion's Children are active at least 3 times a week (60% Primary Age & 47% Secondary Age) 24% are reported as not being active and 11% active once a week (Sport Wales School Sport Survey 2018)</p> <p>34% of Adults in Ceredigion participate in sporting activities 3 or more times a week 52% of adults expressed a latent demand for activity (National Survey for Wales 2019-20)</p>	<p>Improve data capture to demonstrate the benefits of being physically active on wider issues such as mental health, loneliness and social isolation etc.</p>

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

<p>3.4. A Wales of cohesive communities Communities are attractive, viable, safe and well connected.</p>	<p>Community cohesion is about building social capital by increasing social connectivity between people. Social interaction will be a key element of the PSA.</p>	<p>Community Cohesion Theory – for example the concept of parallel lives by Ted Cattle. National Survey for Wales Community Cohesion Indicators. Information from the Mid and West Wales Community Cohesion Team. CCC Youth Service held consultations with Lampeter Neighbourhood Policing Team, local residents, town councillors, schools, the Family Centre and other voluntary partners to discuss what opportunities were available. They reported; Regularly, a group of 10-15 young people from the ages of 10-22 were putting themselves at risk e.g. being out late at night, causing community distress, being involved in drugs and alcohol, gangs and potential county lines activity;</p>	<p>Continue to build on spaces and opportunities for positive social interactions, especially via Porth Cymorth Cynnar.</p>
---	---	---	---

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

		<p>Young people felt there was a lack of suitable venues or safe spaces where they can relax, socialise, access WIFI and not be bothered by adults; A PCSO expressed that “In Lampeter, there’s a lack of suitable venues for young people to enjoy and feel safe. This could act as a great tool for early intervention and prevent risky behaviours.”</p>	
<p>3.5. A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental well-being.</p>	<p>By fostering good relations and building community cohesion, communities will have greater connectivity and potentially greater understanding of global citizenship. The UK has agreed to follow a range of UN Treaties. Ceredigion County Council has a role to play as a globally responsible local leader. Relevant UN Conventions include: The International Covenant of Economic, Social and Cultural Rights, (ICESR), and in particular the right to the highest attainable standards of health. The Convention on the Rights of Persons with Disabilities (CRPD). The United Nations Convention on the Rights of the Child (UNCRC).</p>	<p>Community Cohesion Theory – for example the concept of parallel lives by Ted Cattle. To include the assessment of relevant UN Treaties in the impact assessments of policies, strategies and service delivery plans that sit under the model of the Through Age Wellbeing Programme.</p>	<p>Seek to enhance opportunities for positive interactions. De-escalate community tensions. Take note of recommendations from the UN to the UK Government and to Welsh Government. For example providing sufficient resources for the mental health sector to ensure the accessibility, availability and quality of mental health care.</p>

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

	<p>The International Convention on the Elimination of all forms of Racial Discrimination (CERD) Convention on the Elimination of Discrimination of Against Women (CEDAW).</p>		
--	--	--	--

<p>3.6. A more equal Wales People can fulfil their potential no matter what their background or circumstances.</p> <p><i>In this section you need to consider the impact on equality groups, the evidence and any action you are taking for improvement.</i></p> <p><i>You need to consider how might the proposal impact on equality protected groups in accordance with the Equality Act 2010?</i></p> <p><i>These include the protected characteristics of age, disability, gender reassignment, marriage or civil partnership, pregnancy or maternity, race, religion or beliefs, gender, sexual orientation.</i></p> <p>Please also consider the following guide:: Equality Human Rights - Assessing Impact & Equality Duty</p>	<p>Describe why it will have a positive/negative or negligible impact.</p> <p><i>Using your evidence consider the impact for each of the protected groups. You will need to consider do these groups have equal access to the service, or do they need to receive the service in a different way from other people because of their protected characteristics. It is not acceptable to state simply that a proposal will universally benefit/disadvantage everyone. You should demonstrate that you have considered all the available evidence and address any gaps or disparities revealed.</i></p>	<p>What evidence do you have to support this view?</p> <p><i>Gathering Equality data and evidence is vital for an IIA. You should consider who uses or is likely to use the service. Failure to use <u>data</u> or <u>engage</u> where change is planned can leave decisions open to legal challenge. Please link to involvement box within this template. Please also consider the general guidance.</i></p>	<p>What action (s) can you take to mitigate any negative impacts or better contribute to positive impacts?</p> <p><i>These actions can include a range of positive actions which allows the organisation to treat individuals according to their needs, even when that might mean treating some more favourably than others, in order for them to have a good outcome. You may also have actions to identify any gaps in data or an action to engage with those who will/likely to be effected by the proposal. These actions need to link to Section 4 of this template.</i></p>												
<p>Age Do you think this proposal will have a positive or a negative impact on people because of their age? (Please tick ✓)</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 25%;">Children and Young People up to 18</td> <td style="width: 12.5%;">Positive</td> <td style="width: 12.5%;">Negative</td> <td style="width: 12.5%;">None/ Negligible</td> </tr> <tr> <td></td> <td style="text-align: center;">✓</td> <td></td> <td></td> </tr> <tr> <td>People 18-50</td> <td>Positive</td> <td>Negative</td> <td>None/ Negligible</td> </tr> </table>	Children and Young People up to 18	Positive	Negative	None/ Negligible		✓			People 18-50	Positive	Negative	None/ Negligible	<p>PSA affects people of all ages: 0-18 for Play under the guidance of Play Wales; 0-25 for Welsh Government Grants such as the Winter of Wellbeing and the Summer of Fun; Young Parents; Older Parents; Grandparents. Play has a positive impact on Physical, Social and Mental</p>	<p>The latest Welsh Government figures estimates Ceredigion's population to be 72,895 (2020), which is the fourth lowest in Wales. Ceredigion has experienced a fluctuating population since 2001 and it is estimated to have reduced in each year since its population peaked at 75,900 in mid-2012.</p>

Sex Do you think this proposal will have a positive or a negative impact on men and/or women? (Please tick ✓)				The PSA will support all people, including male and female under the protected characteristic of sex. Whilst the provision of Play opportunities will predominantly be delivered as gender neutral, there will be instances where single gender activities will be provided. This approach will be adopted when a lack of confidence has been identified as a barrier to individuals being physically active.	The Through Age Wellbeing Model includes support and services for all people, including people with protected characteristics. 50% of people in Ceredigion are male and 50% are female, (2011 Census).

Having due regards in relation to the three aims of the Equality Duty - determine whether the proposal will assist or inhibit your ability to eliminate discrimination; advance equality and foster good relations.

3.6.2. How could/does the proposal help advance/promote equality of opportunity?

You should consider whether the proposal will help you to: ● Remove or minimise disadvantage ● To meet the needs of people with certain characteristics ● Encourage increased participation of people with particular characteristics

Play sits with the Wellbeing Centres Service of the Through Age and Wellbeing Programme (TAWP). The TAWP aims to support people by providing early intervention and prevention services via Porth Cymorth Cynnar for people from all backgrounds including the protected characteristics. Where there is a need, people can receive targeted services via Porth Gofal or through age specialist services via Porth Cynnal. From the point of first contact through to receiving support and service delivery, the programme model is designed to be accessible and to provide equality of opportunity for all, including people with the Protected Characteristics. The PSA will work with these key service areas when planning Play opportunities in Ceredigion.

3.6.3. How could/does the proposal/decision help to eliminate unlawful discrimination, harassment, or victimisation?

You should consider whether there is evidence to indicate that: ● The proposal may result in less favourable treatment for people with certain characteristics ● The proposal may give rise to indirect discrimination ● The proposal is more likely to assist or impeded you in making reasonable adjustments

It is not anticipated that the proposal will have any negative impacts resulting in unlawful discrimination, harassment or victimisation. The programme addresses impacts across the Protected Characteristics.

3.6.4. How could/does the proposal impact on advancing/promoting good relations and wider community cohesion?

You should consider whether the proposal will help you to: ● Tackle prejudice ● Promote understanding

Community cohesion is about building social capital by facilitating positive social interactions and connectivity. The proposal will have a positive impact on promoting good relations by increasing opportunities for social interactions in Ceredigion.

3.7. A Wales of vibrant culture and thriving Welsh language Culture, heritage and Welsh Language are promoted and protected. <i>In this section you need to consider the impact, the evidence and any action you are taking for improvement. This in order to ensure that the opportunities for people who choose to live their lives and access services through the medium of Welsh are not inferior to what is afforded to those choosing to do so in English, in accordance with the requirement of the Welsh Language Measure 2011.</i>				Describe why it will have a positive/negative or negligible impact.	What evidence do you have to support this view?	What action (s) can you take to mitigate any negative impacts or better contribute to positive impacts?
Will the proposal be delivered bilingually (Welsh & English)?	Positive ✓	Negative	None/ Negligible	Opportunities within the PSA will be delivered bi-lingually.	All signage, plans, supporting documents and officer support will be delivered bi-lingually.	The delivery of the programme bi-lingually will contribute to a positive impact on the Welsh Language.
Will the proposal have an effect on opportunities for persons to use the Welsh language?	Positive ✓	Negative	None/ Negligible	People will be able to use Welsh whilst accessing opportunities identified in the PSA.	People will be able to use Welsh at play facilities or at play activities.	The opportunities for people to fully use the Welsh Language will contribute to a positive impact on the Welsh Language.
Will the proposal increase or reduce the opportunity for persons to access services through the medium of Welsh?	Positive ✓	Negative	None/ Negligible	People will be able to fully access services through the medium of Welsh.	Number of staff employed at Through Age Physical Activity & Play Service that are fluent Welsh speakers.	The fully bilingual programme will have a positive impact on people being able to access services through the medium of Welsh.
How will the proposal treat the Welsh language no less favourably than the English language?	Positive ✓	Negative	None/ Negligible	The PSA will give equal status to the Welsh Language.	All information and service delivery will be available bi-lingually.	The PSA will have an overall positive impact on treating the Welsh and English Languages equally.
Will it preserve promote and enhance local culture and heritage?	Positive ✓	Negative	None/ Negligible	The PSA presents an excellent opportunity to enhance local culture and heritage.	Parks and play areas all over Ceredigion will be important venues for local culture and heritage	The programme will have an overall positive impact on local culture and heritage.
