Please give a brief description of the purpose of the proposal

The Public Services Board (PSB) Local Well-being Plan 2023-2028 for Ceredigion seeks to deliver on the Well-being of Future Generations (Wales) Act 2015; contributing to the seven National Well-being Goals and applying the ‘Sustainable Development Principle’ five Ways of Working. The plan sets out the following objectives, all of which have been developed in response to an Assessment of Local Well-being for Ceredigion and engagement and consultation with citizens, to improve the state of economic, social, environmental and cultural well-being of the people in the county. The Well-being Objectives within the plan are:

1. Work together to achieve a sustainable economy that benefits local people and builds on the strengths of Ceredigion.
2. Work together to reduce inequalities in our communities and use social and green solutions to improve physical and mental health.
3. Work together to deliver decarbonisation initiatives within Ceredigion to protect and enhance our natural resources.
4. Work together to enable communities to feel safe and connected and will promote cultural diversity and increase opportunities to use the Welsh language.

A cross-cutting objective to tackle hardship and poverty is also incorporated into the plan to reflect the current and future implications of the cost-of-living crisis. It is recognized that this will have the potential to impact across the four well-being pillars - economic, social, environmental, and cultural well-being and working together collaboratively across PSB organisations will help maintain a focus on this area of work.

Who will be directly affected by this proposal? (e.g. The general public, specific sections of the public such as youth groups, carers, road users, people using country parks, people on benefits, staff members or those who fall under the protected characteristics groups as defined by the Equality Act and for whom the authority must have due regard).

Cyngor Sir Ceredigion County Council - Integrated Impact Assessment (IIA)

An integrated tool to inform effective decision making

The plan will directly affect all of the population of Ceredigion throughout all the stages of life, although certain aspects of the plan will affect some key groups more than others.

VERSION CONTROL: The IIA should be used at the earliest stages of decision making, and then honed and refined throughout the decision making process. It is important to keep a record of this process so that we can demonstrate how we have considered and built in sustainable development, Welsh language and equality considerations wherever possible.
