Estyn

Our link inspectors are continuing to work with Torfaen as part of our follow-up process for an authority causing significant concern. Conwy local government education service report was published on 18 January 2024, and we highlighted strong practice in the way the local authority worked across its service areas to provide integrated support for vulnerable young people.

We piloted a few new approaches to our inspection arrangements in the Vale of Glamorgan in the week beginning 11 March. We also inspected the Vale of Glamorgan's youth work in the week beginning 19 February 2024, and the findings of that inspection informed the evidence base for the LGES inspection. Both the youth and the LGES reports will be published on 30 April. During the spring term, Estyn link inspectors contributed to the assurance and risk workshops with local authorities across Wales.

During the summer term, we will be piloting our enhanced link visits in two local authorities. The visits will involve three link inspectors visiting a local authority for two days, focusing on one or two specific aspects of the local authority's work. The output is a letter to the Chief Executive Officers which is published on our website. We will also be inspecting Ceredigion and Caerphilly local government education services. We will be carrying out field work in all local authorities on the Implementation of the Additional Learning Needs and Education Tribunal [Wales] Act 2018 in non-maintained settings, primary and secondary schools, and all-age schools Year 2. This review follows on from the year 1 review of the implementation of the ALNET Act in schools, which was published in September 2023.

¹ We will continue to keep our plans under constant review, taking account of the evolving external environment, our audit priorities, the context of our own resourcing and the capacity of audited bodies to engage with us. Follow-up work could also lead to other outputs, as may other local audit work where we consider there is merit in a national summary output of some kind.

² We have also published a paper on our website – [Our work programme for 2023-2026](#) – that provides additional detail about our national work (including local thematic reviews). In addition to new work that we will be taking forward in 2023-24, the paper includes details about indicative topics for work to start in 2024-24 or 2025-26. We have recently identified plans for new areas of work to start during 2024-25 in our Annual Plan 2024-25.
