- TILT BARRIER/ FLOOD GATE
- INNER HARBOUR WALL WORKS
- INNER HARBOUR FLOOD GATE
- RIVER WALL WORKS
- SOUTH PIER WORKS
- PROPOSED DRAINAGE
- PLANNING BOUNDARY (BASED ON SITE COMPOUND INDICATED AND ANTICIPATED TRANSPORT ROUTES)
- CEREDIGION COUNTY COUNCIL OWNED LAND
- EXISTING CONCRETE WALL TO BE REMOVED AND REPLACED WITH A MASONRY AND GLASS WALL
- REPLACEMENT OF EXISTING GROYNES
- SITE COMPOUND
- ACCESS / EGRESS
- ALL WALES COASTAL PATH
- ALL WALES COASTAL PATH DIVERSION

SAFETY, HEALTH AND ENVIRONMENTAL INFORMATION

In addition to the hazards/risks normally associated with the types of work detailed on this drawing, note the following:

CONSTRUCTION

Potential for striking live underground services or unrecorded services. Working in intertidal zone and potential for work area to become inundated. Risk of collapse of unstable structures such as South Pier. Access to the car park near the Yacht club is restricted as the area is used for boat storage during the winter. Access to Quay Parade is narrow with parked vehicles present adjacent to the harbour wall. The harbour is operational with small leisure craft and fishing boats accessing and egressing during high water. Potential presence of Sabellaria at North Beach. Presence of historic fish traps on South Beach to be demarked during construction. Risks to the natural environment and ecology as detailed in the Environmental Statement.

MAINTENANCE/CLEANING

Damage to flood defences i.e. rock structures, glass panels & tilt barriers to be inspected regularly and after storm events. Optical obstruction sensors on tilt barriers to be maintained in operating condition. Refer to Pwll Cam Gate Operating Manual.

DECOMMISSIONING/DEMOLITION

As construction. It is assumed that all works will be carried out by a competent contractor working, where appropriate, to an approved method statement
